Allowed Claims: 6 and 8-33.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically, with respect to independent claim 6, none of the prior art alone or in combination disclose or teach of an optical projection system comprising an optical element formed in a monolithic body, having a connecting region having a connecting area for accepting a front face of a light guide as claimed, specifically wherein said connecting region extends beyond a side of a carrier to form a free standing projection and the monolithic body is held by the carrier, which is separate from the monolithic body.

Specifically, with respect to independent claim 10, none of the prior art alone or in combination disclose or teach of an optical projection system comprising an optical element formed in a monolithic body, having a connecting region having a connecting area for accepting a front face of a light guide as claimed, specifically wherein said connecting region extends beyond a side of a carrier to form a free standing projection the radiation-field-shaping region has a refractive index gradient for radiation field shaping.

Specifically, with respect to independent claim 11, none of the prior art alone or in combination disclose or teach of an optical projection system comprising a plurality of
